Andy Lunsford
CEO
BreachRx

Jonathan Greenblatt
VP, Legal
LinkSquares

What's Driving Change: AI, Regulation & Global Shifts

Key takeaway: Legal must be the navigator of these changes

Biggest trends

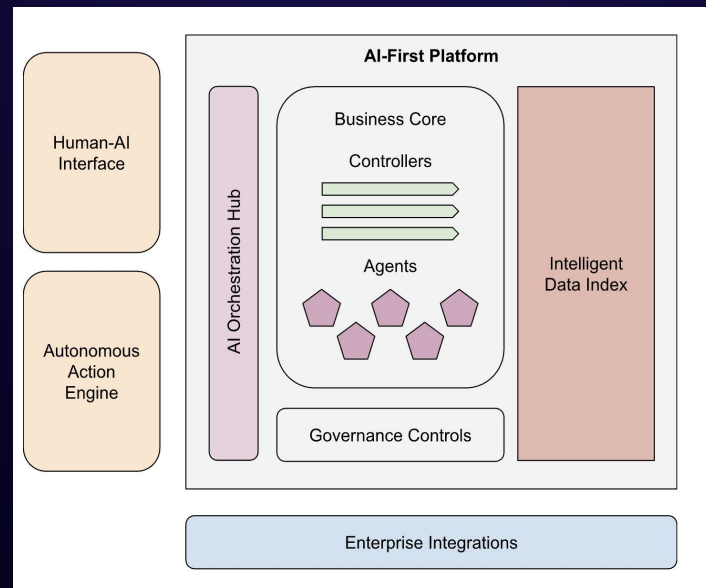

- Rapid-fire policy shifts: Executive Orders, trade, tariffs
- EU AI Act & evolving U.S. state laws = new compliance pressure
 - Deep fake laws
- Innovation is outpacing legislation
- Legal's role?
 - Proactive guidance—not just reactive compliance

Making AI Work for Legal: What's Possible Today and in the Future

Key takeaway: Today: Copilots, Tomorrow: Autonomous legal agents

- Agentic AI ≠ Traditional AI: it **acts**, not just responds
- Practical and-specific use cases
 - Redlining
 - Search
 - Contract insights
- AI roadmap = Start small, scale smart
- Infrastructure, collaboration, and oversight are key

Building an AI Committee: Frameworks, Roles & Buy-In

Key takeaway: Great AI strategy starts with great cross-functional collaboration

- Start with the “why”
 - Risk mitigation, ROI, data
- Legal as early adopters → org-wide guides
- Involve IT, Product, Privacy, and Execs early
- Define data governance and 3rd-party review processes

Future-Proofing Legal Teams: People, Process & Tech

Key takeaway: building your strategy starts with your people

Flexibility, tech fluency & cross-functional collaboration

Partner with product & engineering early

Balance compliance with creative problem solving

Embrace a culture of *strategic innovation*

Final thoughts and next steps

Try to stay on top of
new laws and trends

Review new
executive orders

Define & refine
your processes

Understand your
why behind using AI

Thank you!
